RE: FLOOD IRRIGATION

Greetings!

As posted on the city's FaceBook page (<https://www.facebook.com/p/City-ofGreenleaf-100064837292762/>) on 24 July 2026:

FLOOD IRRIGATION - Flood irrigation from the city's gravity irrigation system is discouraged, especially between the hours of 7:00 am and 10:00 pm.. As a courtesy to your neighbors, please install a pump for more efficient irrigation and greater water availability for others around your property. One property flood irrigating can remove water availability for an entire street. Please do not choose to create an availability issue that will prompt city response.
