### Memorandum

Date: 30 Jun 2022  
To: Whom it May Concern  
cc: Mayor, City Council  
From: Lee C. Belt, City Clerk  
  
RE: 2022 IRRIGATION SEASON – UPDATE

---

Greetings!

The weir for gravity-feed delivery to the majority of town will be turned on later than normal on Tuesday 05 July due to needed maintenance on irrigation lines. Next week only (03-09 July 2022) irrigation will run an additional day on Friday, with irrigation turned off at the weirs Saturday 09 July at approximately 8:00a.

The following week (10-16 July 2022) the city irrigation system will be on the normal Monday through Thursday irrigation schedule. Spring rainfall capture in the Boise Project dam system and subsequent increase in irrigation allotment from Boise Project, along with conservation efforts earlier this irrigation season have made the return to normal schedule possible. The city does not know how long into late summer / fall irrigation water will be available from the Boise Project system, but the city anticipates having enough water to maintain normal schedule through a normal water year.

Please contact City Hall if there are questions, and refer to previous irrigation memos posted on the 'bulletin board' on the city's website ([www.greenleaf-idaho.us](http://www.greenleaf-idaho.us)) for background information.

More information will be posted as a memo on the city's website and on the city's Face Book page as it becomes available.
