RE: CPR AED AND BASIC FIRST AID CLASS

Greetings!

The city has made arrangements to make a CPR (cardiopulmonary resuscitation), AED (automated external defibrillator) and Basic First Aid class available. If interest exceeds class size limitations, then an additional future class may be scheduled.

This is a 'blended' class, provided in two parts.

First, upon registration and payment of \$50.00 by card or PayPal through the link given below, access will be given by email to the internet-provided course content, which may be taken at individual pace and schedule. This course content may take about two hours total to complete. An email will be sent from "Young Hearts Education" with paid invoice shortly after registration and payment, followed later by a separate email from "HSI Platform" confirming enrollment and containing an internet link to course content.

Second, there will be a skills review and verification session at 7:00p on Thursday 11 April 2024 at the Greenleaf Community Center (21513 Main Street, Greenleaf, Idaho).

To receive a certification card from the American Safety & Health Institute (ASHI), the internet-provided course content must be completed before attending the skills review and verification session.
